PRIME SQUARES”***

SYMMETRIC MATRIX of FREQUENTIC PRIMES

...is the title of the investigation into the phenomenon "super perfect palindromic prime squares" - SPPPS.

In the following survey we have listed the complete collection of super perfect order-5 prime squares.

They are listed according to their so called "corner number".

Within each corner number list the squares are ordered according to the different sets of "corner frames".

For a square to be "super perfect" it must contain 7 unique palindromic prime numbers.

On the following page the principles and codex for SPPPS are explained.

Enjoy your trip into the fascinating world of the SYMMETRIC MATRIX of FREQUENTIC PRIMES*.

Best regards!
